**We optimise your car wash business with leading technologies and innovation.**

# Automatic Rollover Machines

Our broad range of Rollover machines are available in various configurations, from a simple low volume 3 brush commercial machine through to a fully configured high speed, multi brush unit.

Available with many options including.

- On board contouring dryers
- 5 brush configurations
- Combination touchless and soft wash
- Various product applications
- High pressure pre-wash
- Water recycling systems

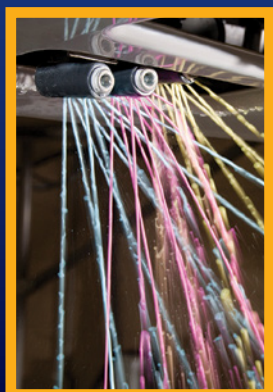

# Automatic Touchless Machines

The various models of touchless machines, including the overhead and gantry style units feature powerful, advanced flow technologies. Our engineered spray patterns along with our special car wash chemicals are designed to offer a superior wash quality.

Customisable options are:

- Combined on board dryers
- Surface sealant application
- Tri Colour wax application
- Wheel wash & underbody
- Various payment terminals and activation stands
- Various wash package settings

# Self-Serve Manual Car Washes

We offer various customisable options and configurations including underbody wash, outboard engine flush, boat wash and dual push button control panels as well as various activation & payment solutions.

Perfect for many applications including:

- Combined Automatic and manual car wash sites
- Car detailing business
- Automotive dealerships
- Commercial wash sites
- Hand car wash sites

## Conveyor or Tunnel Wash Systems

Conveyor or tunnel car wash systems are ideal for high volume sites that require a superior wash finish. Using this system reduces waiting time and increases wash revenue.

We offer various size conveyor tunnel systems in a variety of configurations to meet site design requirements and budgets. It is the ideal solution for either small footprint sites with limited queuing space or areas that have higher volume peak times.

### Express and Mini Tunnel Washes

Express mini tunnels can be configured for your standard wash bay length or a conversion upgrade of an existing rollover to a conveyor wash system. The Express mini tunnels offer the solution to the higher volume car wash sites that want minimal queuing space during peak times. The equipment is modular in design so we are able to configure and build a system that will suit all budgets.

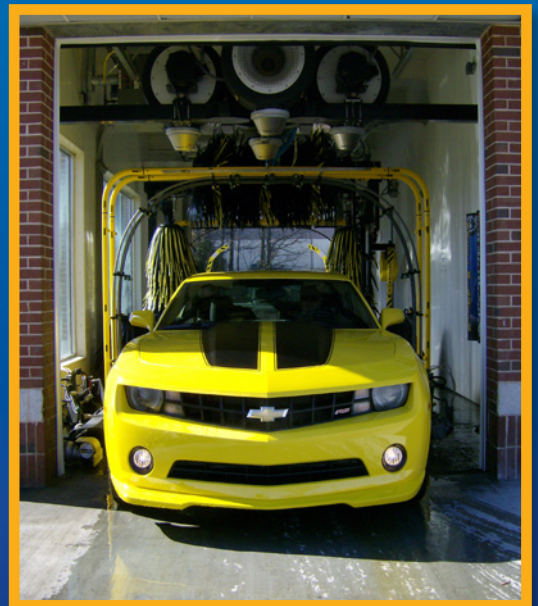

**We can work with you on tailoring  
your system to meet your car  
washing needs!**

## Drive-Thru Wash Systems

**Designed specifically for automotive dealerships, fleet and rental car businesses where a simple superior high volume wash is required.**

This style of machine is fully customizable with options to include various brush configurations and dryer options.

## Car Wash Enclosures & Canopies

**Our purpose built car wash bays are designed to offer the flexibility and convenience of a complete modular building system that utilises our full range of automatic and self serve vehicle wash equipment.**

We can customise to suit any site conditions or requirements.

# Good Sight...the best in the business!

## Car Wash Accessories

**We have a great range of coin operated or complimentary accessories to add to any new or existing car wash or corporate facility.**

Some optional accessories are:

- Stand alone and central vacuum systems.
- Automatic mat cleaners.
- Self serve in bay dryers.
- Coin operated paper towel dispensors.
- Car Care Vending machines.
- Stand alone coin operated fragrance systems.
- Coin operated dog wash units.
- Full range of activation stands, payment terminals & change machines.

## Outstanding Customer Support & Service

**Good Sight Australia Pty Ltd offers a range of regular preventative maintenance schedules to support our client's needs.**

All of our equipment is backed by our National Support Network via a fully equipped fleet of service vehicles.
